QSAC - Quality Single Accountability Continuum for Curriculum and Instruction

- The Quality Single Accountability Continuum (QSAC) is the Department of Education's monitoring and evaluation system for public school districts.
- The system shifts the monitoring and evaluation focus from compliance to assistance, capacity-building and improvement.
- It is a single comprehensive accountability system that consolidates and incorporates the monitoring requirements of applicable state laws and programs and complements federally required improvements.
- The system focuses on monitoring and evaluating school districts in five key components that, based on research, have been identified to be key factors in effective school districts.
 - Curriculum & Instruction, Fiscal Management, Governance, Operations, and Personnel.
